DETAILED ACTION

1. Claims 1-45 are pending in this Office Action.

Allowable Subject Matter

- 2. Claims 1-45 are allowed over the prior art of record.
- 3. The following is an examiner's statement of reasons for allowance:

As per independent claims 1, 21, 41-45 the applicants teach a speech recognition refinement system/method. The prior art of record fails to teach or fairly suggest the claimed combinations of features. The prior art of record particularly fails to teach or fairly suggest in combination with other limitations, a problematic word identifier identifies problematic words according to pre-defined criteria and a dictionary refinement manager that combines optimized problematic pronunciations with non-problematic pronunciations to produce a refined speech recognition dictionary.

With regard to prior art of record, Juang et al. (US 6,076,053) teaches a speech recognition method comprises the steps of using given speech data and the N-best algorithm to generate alternative pronunciations and then merging the obtained pronunciations into a pronunciation networks structure and optimizing the parameters of the pronunciation networks using minimum classification error criterion that maximizes a discrimination between different pronunciation networks. However, Juang fails to teach or fairly suggest a problematic word identifier identifies problematic words according to pre-defined criteria and a dictionary refinement manager that combines optimized problematic pronunciations with non-problematic pronunciations to produce a refined

speech recognition dictionary. Therefore, claims 1-45 are allowed over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
